Subject: Microsoft Settlement

Dear Attorney General Ashcroft,

I am writing to let you know I support the Bush Administration and Microsoft in their desire to settle this lawsuit.

Not only do I believe that Microsoft has done nothing to harm me as a consumer, but I believe my life has been greatly improved because of all the technology brought to the market because of Microsoft. The advent of the home computer has transformed my life and 'raised the level of all boats'. To prove there's no monopoly in my home, we own a Macintosh, and we also run Unix on our server, though we use Microsoft on our PCs. I have never been forced to use Bill Gates products, and the ones I do use, are used through choice. Explorer is without a doubt a better product than Navigator. There is a choice, and 90% of users agree. The 10% who use Netscape are proof that the government had a specious argument for 'monopoly'.

Stop wasting my taxpayer dollars on this trial. Drop this case! Free up Department of Justice resources to pursue antitrust violations that currently truly harm the public.
